Re: Protect BC's nurses and all of Canada's nurses now – care for those who care for you

Dear Minister Hajdu,

I am writing to you today to tell you, on behalf of the 48,000 members of the British Columbia Nurses' Union, that BCNU stands with nurses from across this country, in our call for you to support, in every way possible, the safety of Canada's nurses.

Nurses are united in [our demand](#) that the federal government do more now to protect nurses and all health care workers during this pandemic.

We expect your government to take immediate action to protect the health of our members and all frontline health care workers, so that Canadians will have access to the care they need in our public health care system.

Sincerely,

Christine Sorensen
President
BC Nurses' Union
